

Please print this guide on A4 paper with the option **DO NOT SCALE**

Chipmunks

Size Guide

Instructions

Once printed check the scale is correct by measuring the ruler (right) with a tape measure.

Place the guide flat on the floor and the heel of your child's foot against the line marked below.

The size of shoe you should get is indicated by the black line in front of your child's big toe.

Chipmunks shoes have a wider toe area by design, to allow little toes to grow.

If your child has a narrow foot they may require an additional insole.
